DISCLAIMER OF LIABILITY

NOTE: WE STRONGLY SUGGEST THE READER TO GO THROUGH THE SECTION TITLED “DISCLAIMER OF LIABILITY” COMPLETELY BEFORE PROCEEDING TO READ THE OTHER CONTENTS OF THIS WHITEPAPER ISSUED BY AGRONIUM.

Any kind of information, predictions, assumptions, and statistics represented in this whitepaper are completely for GENERAL PURPOSES. It is advised that the information accommodated in this whitepaper cannot be understood as a financial, legal, or advisory council. This whitepaper does not lead to an INVITATION TO INVEST and does not organize or promote any type of contractual obligation. If you come across any queries or doubts, we recommend that you seek assistance from an attorney, accountant, or any other deemed fiduciary of your choice. Any reference to external resources or third-party material in the whitepaper is provided for representational purposes only and cannot be understood as any form of approval or endorsement of their information or estimations.

By reading this whitepaper, you agree to absolve AGRONIUM of any responsibility for any damages arising directly or indirectly from relying on any information provided in this document. Regarding more queries about legislation and regulations concerning cryptocurrency, we highly recommend that you seek counsel from qualified professionals and your attorney, accountant, or trusted fiduciary.

When drafting this whitepaper, the utmost care and diligence were exercised to ensure the integrity of the facts and statements mentioned in the document.

By reviewing and seeking information about AGRONIUM, the reviewer confesses that they have read, understood, agreed, and embraced all the terms and conditions mentioned in the section labeled “DISCLAIMER.”

ABSTRACT

Since the internet's inception, the options it has provided have been limitless. The Internet brings education to the most remote parts of the globe, boosts companies, Sends messages to loved ones in a fraction of a second, and puts the entire world in your hands. However, with greatness comes great responsibilities, once Agronium achieve its goals, many community members will have the opportunity to achieve their own goals with their own community. Centralization comes with all-new technical advancements. The intermediaries and financial institutions kept track of every transaction. With the arrival of blockchain technology, all of this was wiped.

The qualities of decentralized peer-to-peer transactions came forward, which gave birth to the "Blockchain," mostly according to the whitepaper issued by the pseudonymous "Satoshi Nakamoto" concerning the creation of a cryptocurrency known as "Bitcoin." Blockchain is a decentralized technology that is a digital ledger that records every transaction involving physical or digital assets that occurs in a decentralized network and is available to cross-check for integrity at any moment. The blockchain's unhackability and immutability have propelled it to where it is now. Blockchain is quietly but steadily making its way into our daily lives.

One of the greatest applications of blockchain is cryptocurrency. These new-age digital assets have transformed the conventional financial sector and have proved that decentralization is the future. This cutting-edge technology has seized the attention of fintech enthusiasts worldwide, and they have already started to adopt cryptocurrencies. According to CoinMarketCap, the total market capitalization of all cryptocurrencies is more than \$1.89 trillion USD. Also, their use-cases are increasing day after day to make them reach new heights.

AGRONIUM is a phenomenal initiative that is conceived to leverage the advantages of cryptocurrency. It works with a vision to help people use crypto assets in their routine lives, "the everyday crypto," to meet their daily needs and requirements. AGRONIUM strongly believes these AGRONIUM "Agro-Cypto" assets have the potential to change the world In the way day-to-day transactions are done and pave the way to global financial equality and economic development.

AGRONIUM - AN INTRODUCTION

“We put the meaning of ACTION into transaction”

AGRONIUM is a blockchain-based project that yearns to help people all across the world use cryptocurrencies to lead their new-normal lives. Our path began with a desire to help businesses connect with customers in an easy, affordable, and environmentally sustainable manner. We are backed by an adept crew who are always passionate about blockchain and cryptocurrency. It is this passion that has made us stand here with a strong determination to help people adapt to cryptocurrencies.

The operation of AGRONIUM is further strengthened by our native utility coin, AGRONIUM. It is a BEP-20 standard token built on the robust Binance Smart Chain network. The platform makes the best use of the network, including higher throughput rate, ultra-fast transactions, lower gas fees, etc.

AGRONIUM firmly trusts that every individual on this mother Earth has the right to make a digital transaction. The world is asking for a brand-new cryptocurrency that is secure, easy to use, and the one that is globally accepted. The world is asking for an everyday crypto that should be fast and, at the same time, affordable. To turn their dreams into reality, AGRONIUM has created the AGRONIUM coin.

AGRONIUM makes it easy to securely connect people to businesses, products, and services. We are the preferred choice for everyday and major purchases. Cardholders of the AGRONIUM Universe Mastercard Crypto card and users of the AGRONIUM wallet mobile app give everyone the opportunity to participate in a contactless transaction society.

When individuals or organizations come forward to do business by accepting cryptocurrency as a payment mode, it makes the world a better place as the utmost transparency, immutability, and security are ensured by the blockchain. AGRONIUM will collaborate with real-world merchants to increase the utility of the AGRONIUM coin. To be precise, AGRONIUM coin endeavors to make global commerce secure, fast, affordable, and most importantly, user-friendly.

VISION

We envision an agriculture enterprise that embraces innovation, technology, and best practices to maximize efficiency and foster a sustainable future. We strive to provide the best quality and sustainable practices to cultivate nutritious food and products while safeguarding the environment and natural resources while using our token as an express medium of exchange. Our commitment to the land, our community, and the health of our people and livestock is paramount to our success. As an agro-crypto community, we're dedicated to protection and stewardship, through environmental conservation and preservation, simultaneous with economic growth with the infusion of our native utility currency AGRONIUM coin.

MISSION

Our mission is to empower small farmers, women and youths to produce healthy, nutritious crops for their local communities and also for the globe. We aim to create sustainable initiatives and long-term partnerships with our farmers; providing constant support and assistance, financially and technically. Through our farm vision, we remain devoted to sustaining the land and integrity of farming production, while also pushing the boundaries of agricultural practices for increased productivity and efficiency. To have everyone adopt AGRONIUM coin as the means of exchange for all transactions globally.

Goal & Objectives

Goal

To ensure food security, poverty alleviation and to generate employment opportunities through achieving higher growth rate and financial freedom through opportunities surrounding AGRONIUM coin (our utility token) in this vital sector of the economy.

Objectives

- To ensure food security and improve the living standards of small farmers through increased production and employment generation.
- To pursue agricultural development on sustainable basis.
- To facilitate value addition for exportable products.
- To reduce deficit in crop production through variety improvement.
- To convert natural resources into viable business enterprises through scientific, technical, public private partnership and marketing support.

Our Values

- Respect and value for local knowledge and innovations
- Value for the environment and ecosystems
- Professional, effective and informed by relevant science
- Creative, flexible and innovative
- Sensitive to gender
- Quality, equality and ethics
- Passion

OUTPUT

AGRONIUM will partner with other platforms globally to integrate our token as a means of exchange for value (Products and Services).

AGRONIUM partners with THE NEXT AGROPRENEUR LLC (TNA) to give amazing investment opportunities to everyone who desires to farm but has always found it difficult to do so, with this system you can Invest in our farming programs and also buy a part of our company dividends in forms of NFT.

See our website (<https://agroniumcoin.com/>) for investment offers

AGRONIUM Partners with TNA in reaching out to Farmers through our Agropreneur Farm input Scheme (AFIS) by giving them farm inputs and in return we buy back the farm produce (Crops and Livestock) from all beneficiaries of the program after harvest. These farm produce are processed and sent into the market as finished products to generate revenue. This system ensures sustained supply of Farm Produce at all times.

AGRONIUM Partners with TNA in reaching out to the less privileged through our Agropreneur Women Empowerment Program (AWEP) by setting up farms for all beneficiaries (women and youths) and also send creating marketing opportunities for them to enable them grow through our robust sustainable Value-Chain network, this system also helps generate revenue for Us because we serve as an intermediary bridging the gap between the AWEP Beneficiaries and the final consumers.

AGRONIUM Will launch other utility tokens that will be backed up with Real-time investments. This is futuristic

AGRONIUM Will launch a metaverse where holders can buy virtual properties build communities and generate revenues. This is futuristic.

AGRONIUM COIN Will be listed on top and middle tier cryptocurrency exchange platforms to give the Coin better visibility and also give our holders great user experience

KEYWORD

Global Platforms - Any entity who is into business legitimately that is into financial exchange for value.

The Next Agropreneur LLC (Our Mother Company) - A pragmatic Agricultural Company with over 15 years of experience in Agriculture based in Africa and spreading into the whole world (Owned by the Founder/CEO of AGRONIUM). All assets and investments of TNA are fully backing AGRONIUM COIN.

Agropreneur Farm input Scheme (AFIS) - This project is powered by AGRONIUM through TNA, here we reach out to all farmers that lack the means to maintain or upscale their production. The AFIS project provides farmers with Non-GMO seeds/Seedlings, agro-chemicals, organic fertilizers, consultancy and mentoring to help beneficiaries succeed, here we take away the Hassels surrounding the area of trying to sell their produce without the bargaining power. Do you have the space, time and the will? This is for you!

Agropreneur Women empowerment Program (AWEP) - A humanitarian arm being sustained by AGRONIUM and TNA to reach out to the less privileged, this is our own way of giving back to the society.

Other Utility Tokens - These are tokens that will be coming off the back of our AGRONIUM coin in the future, they will be backed by Real-Time investments.

Metaverse - The metaverse is a vision of what many in the computer industry believe is the next iteration of the internet: a single, shared, immersive, persistent, 3D virtual space where humans experience life in ways they could not in the physical world, make money and at the same find fulfilment

Cryptocurrency Exchange Platforms - Platforms where you can buy and sell different types of crypto.

THE MARKET OPPORTUNITIES FOR AGRONIUM

Acknowledging the increase in Discretionary Consumption

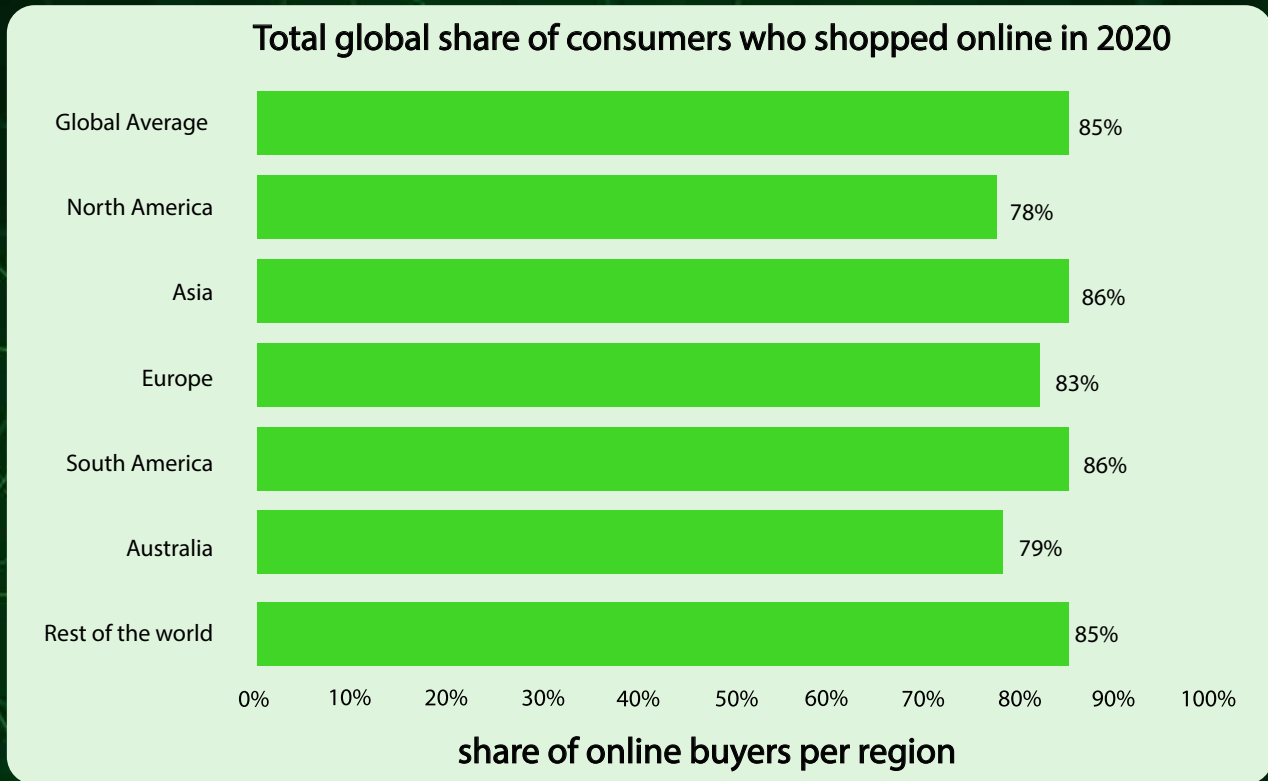

The growth of technology has been tremendous in the last decade and we know that the markets are booming rapidly to meet the economic growth in the developing nations. These emerging markets have shook hands with the people to uplift them financially and made them reach one step ahead in their financial status. This made a lot of "Middle Class" debutants in recent times. Therefore discretionary consumption is in greater demand for quality goods/services. According to the reports, the emerging markets of annual consumption are anticipated to grow by \$30 trillion by 2025.

AGRONIUM tries to capitalize on this market advantage as it is a key opportunity for the platform to make the vision of "the everyday crypto" into reality.

GLOBAL E-COMMERCE MARKETPLACE

The source from "Cryptocurrencies in Retail: Consumer Adoption Report 2021" reveals that nearly 63% of the shoppers show a big thumbs up for using crypto assets for their shopping. The total global share of consumers who shopped online in 2020 is given below.

The global e-commerce market size amounted to \$10.36 trillion USD in 2020. Analysts expect the market size to grow steadily at a CAGR of nearly 15% to reach \$27.15 trillion USD by 2027. Retail online shopping, which has emerged as the most popular activity worldwide, accounts for over half of the worldwide e-commerce market size. The global retail e-commerce market size between 2014 and 2024 is attached below.

Smartphones are now inevitable when it comes to shopping. Online shopping through mobile phones has significantly increased as they provide an extreme level of comfort. Users, by just sitting under their roof, can place orders anywhere around the world within a few clicks without any trouble. The sources from Statista reveal that, of the total volume, nearly 72.9% of e-commerce was generated via mobile commerce in 2021. The growth in smartphone penetration reached 78.05% in 2020. While the average order value of e-commerce orders via smartphones is still low, global e-commerce is steadily increasing because of mobile e-commerce sales.

DECENTRALIZED FINANCE:

According to DeFi Pulse, the total value locked in decentralized finance is \$75.12 billion as of April 2022. How colossal is this value? This clearly depicts that crypto adoption is having a positive trend and there is no doubt that it will soon create new records. The primary reason why the DeFi sector is rapidly growing is that many traditional financial systems are slow and antiquated. DeFi, on the other hand, is powered by Blockchain and, as a peer-to-peer (P2P) system, it is not governed or controlled by any centralized institution such as a bank.

Cutting out intermediaries greatly reduces transaction costs, making it an affordable model for exchange, lending and borrowing, and financial banking services. Besides, transactions are secure because peers only engage algorithmically in a safe environment powered by blockchain

AGRONIUM - The Native Utility Coin:

"Bringing Tangible Hope To The People"

As discussed above, AGRONIUM is the indigenous coin of the AGRONIUM platform. It is a BEP-20 standard token built on the robust Binance Smart Chain network. AGRONIUM will serve as a collateralized token that facilitates cryptocurrency payments on the network. AGRONIUM coin users can stake their AGC to collateralize every payment on the platform, enabling immediate and transparent transactions worldwide. Collateralizing cryptocurrency payments is AGRONIUM coin's long-term solution for making virtual currencies spendable everywhere.

AGRONIUM COIN (AGC) will also facilitate transactions on our Agro-Crypto Investment platform. In this regard, the platform will levy a minimal fee on users who buy or sell virtual currencies. Unlike other platforms that have high transaction fees, AGRONIUM will ensure only a small fee. AGC will also help validators who successfully verify transactions and commit blocks to earn revenue. To allow users to spend digital currencies that are meaningful to them, we will implement AGRONIUM as a fixed-supply BEP-20 token. It will stay as an imperative mode of payment in the whole ecosystem.

GOVERNANCE PROTOCOL:

AGRONIUM platform offers governance attributes to its users, and AGRONIUM is the governance token that allows holders to contribute directly for the growth of the AGRONIUM ecosystem.

The governance issuance makes the platform a community-driven platform that supports the tremendous improvement of the project with the continuous efforts and decisions of the holders.

This right is offered to the user based on their contribution and performance in the AGRONIUM ecosystem. All their activities on the platform will be monitored regularly. When a governance holder exits the system, he/she must pay the exit fee and their tokens will be burnt. A part of this fee will also be distributed to other governance holders. The following are the privileges offered to users:

Transaction Fee: Owning a governance token will enable anyone on the platform to decide the transaction fee through their votes.

Voting Rights: Generally, all governance holders can vote to support and decide AGRONIUM's financial as well as other important parameters to uplift the project in the long-run.

Rewards & Airdrops: The platform will provide exciting rewards to the governance holders, and they will also gain access to exclusive airdrops regularly.

TECH STACK BEHIND AGRONIUM

Blockchain Technology

Using the magnificent prowess of the decentralized peer-to-peer network without the involvement of intermediaries, "Satoshi Nakamoto" published the whitepaper "Bitcoin"- from which the terminology, Blockchain, was created. It helps always staying one step ahead of the centralized system in eradicating the chained hierarchy and single point of concentration.

Blockchain is a digital ledger that records all the information regarding any asset on the blockchain network. The immutable ledger and its unhackable nature resulted in its boom and helped society in the removal of intermediaries. While blockchain's influence on cryptocurrencies is undeniable, this game-changing technology isn't limited to the financial sector. Blockchain technology is very flexible, having applications across a wide range of sectors, given our society's reliance on technology.

Blockchain slowly but surely has integrated with every aspect of society such as:

Binance Smart Chain is one of the most dynamic and promising blockchain networks, allowing users to complete transactions more quickly and for less cost. It is the most effective way to cope with network congestion and rising gas prices. It's a nice place to start if you're working on DApps or other DeFi protocols. It makes considerable use of smart contracts to automate the process. It's a set of pre-programmed instructions that, when specific conditions are met, carry out the task automatically.

The following are the highlights of the Binance Smart Chain network.

Standalone Network:

Even if Binance Chain goes down, Binance Smart Chain does not get affected. BSC is an entirely independent blockchain network.

Ethereum Compatible:

The network is built on the Ethereum Virtual Machine, and dApps built on the Ethereum can be easily ported to the BSC without any complications.

Proof of Staked Authority:

PoSA is the consensus mechanism followed by BSC, which facilitates users to have faster transactions comparatively.

High Performance:

Being a smart contract-enabled platform, BSC processes the transaction with a shorter block time. This tremendously increases the network's performance.

Self-Sovereign Network:

It offers participants in its ecosystem with robust security measures. The data cannot be forged or tampered.

TOKENOMICS

TOKEN NAME	AGRONIUM
TOKEN SYMBOL	AGC
TOKEN TYPE	BEP-20
TOTAL TOKEN SUPPLY	100 MILLION
DECIMAL SUPPORT	18
MINTABLE	NO
BURNABLE	YES

TOKEN DISTRIBUTION

■ Public Sale ■ Liquidity ■ CEX Listing ■ Marketing ■ Staking ■ Airdrops ■ Burn

Vesting schedule, as per token allocation

Stage	Allocation	Tokens(M)	Listing Release	Vesting	Monthly Release
Public Sale	31%	31	100%	-	-
Liquidity	14%	14	100%	-	-
CEX Listing	10%	10	100%	-	-
Marketing	12%	12	100%	-	-
Staking	10%	10	10%	-	20%
Airdrops	3%	3	20%	12	10%
Burn	20%	20	-	12	33.3%

BLOCKCHAIN

AGRONIUM utilizes the cutting-edge technology of blockchain to power and store the transactions. This is because blockchain's powerful consensus mechanisms will make sure of adding valid blocks to the chain and ensure transparency, immutability, and security. The detailed explanation is provided in the tech stack section.

NFT MARKETPLACE

AGRONIUM tries its best to leverage the technology behind NFTs by launching its own NFT marketplace in the future. The marketplace permits users to purchase, sell, trade, mint and hold NFTs effortlessly without any complexities. It is the best-suited platform for NFTs admirers to have a branded and rare collection of NFTs, as these NFTs add unique value to their collections.

Having Agrocentric, ancient Afrocentric and other NFTs in one of their primary ecosystems, users can transfer their assets to the AGRONIUM NFT marketplace and trade them easily across NFT enthusiasts worldwide. To be precise, the platform bestows a seamless and hassle-free NFT trading experience to users. The marketplace will have best-in-class features, such as a fascinating storefront, filter and sort option, easy listing process, built-in wallet, and enhanced user interface. Through this marketplace, we will be able to provide participants with an immutable ownership right for the assets they hold. Also, the AGRONIUM token will be used as a payment mode for paying trading fees, listing fees, minting fees, and other miscellaneous fees.

ROAD MAP

Q4 (2024) CONSOLIDATION

- Team Growth
- Consolidating on all existing Businesses. i.e. AGC, Our NFTs, ASC, Agronium Farms & Value-chain Processing
- Marketing
- Coingecko & CMC Listing (ASC)

Q2 (2024) BUILDING

- Team Growth
- Exchange Listing
- Launch Agronium Sustainability Coin (ASC)
- Launch ASC Presale
- Partnership with Influencers

Q4 (2023) BUSINESS DEVELOPMENT & COMMUNITY BUILDING

- Website Development
- Coin Minting
- Community Setup (Social Media)
- Community Building
- Launch Whitepaper v1.0
- Launch Presale
- Airdrop & Reward Pool
- Launch Affiliate
- Marketing
- Smart Contract

START

Q1 (2025) DOMINANCE

- Team Growth
- Become a Household Name Globally.

Q3 (2024) EXPANSION

- Team Growth
- Setup AGC Farms & Value-chain Processing Globally
- ASC Fair Launch
- Marketing
- Coingecko & CMC Listing (ASC)

Q1 (2024) AGC TOKEN LAUNCH & PLATFORMS

- Fair Launch
- Marketing
- Coingecko & CMC Listing
- Team Growth
- NFT Market Place

Q3 (2023) CONCEPT BUILDING

- Idea Generation
- Market Research
- Concept Building
- Brand Survey
- Development Research
- Team Building
- Brand Awareness & Marketing Component Research.
- Cost Analysis

MEET OUR TEAM
